# NEWARK

COLLECTION

## ABOUT THIS COLLECTION

The Newark Collection captures the essence of modernity and offers a truly distinctive aesthetic that comes from long-ago industrial factories.

This Collection highly promotes the rustic simplicity, and contemporary found in dedicated minimalism and refuses lavish and complicated details to distill what is really necessary for living space.

Coming in two typical colors for the industrial style, Newark is such a new highlight in our tiles series that we want to introduce to the booming building materials market in the future - a breath of modern urbanism, a timeless beauty yet modernity.

INSPIRED BY INDUSTRIAL STYLE

# NEWARK COLLECTION

# NEWARK COLLECTION

The Newark Collection with its rustic matt surface follows the new architectural trend, close to nature - a green living style that gradually becomes one of the most favorable interior designs.

Neutral tones easily blend into any interior decoration materials and highlight them in a subtle way, creating an airy and spacious space.

This Collection is not only suitable for residential buildings in modern interior spaces such as living rooms, bedrooms, bathrooms, and kitchens but also ideal in public buildings.

CREATE THE SPACE OF LIVING  
EXPRESS THE OWNER'S TASTE

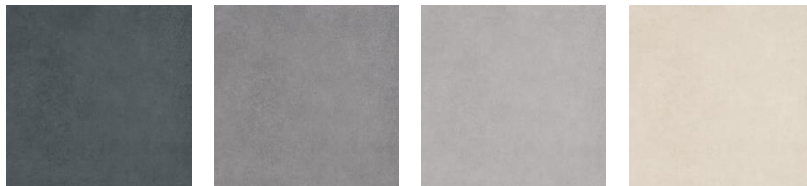

# COLORS AND DESIGNS

Neutral colors with gray and beige are designed in different shades of light to create diversity and high applicability for interior design styles.

*Lead the way to come and enjoy  
a lived-in place of modernity.*
