

ONYX COLLECTION

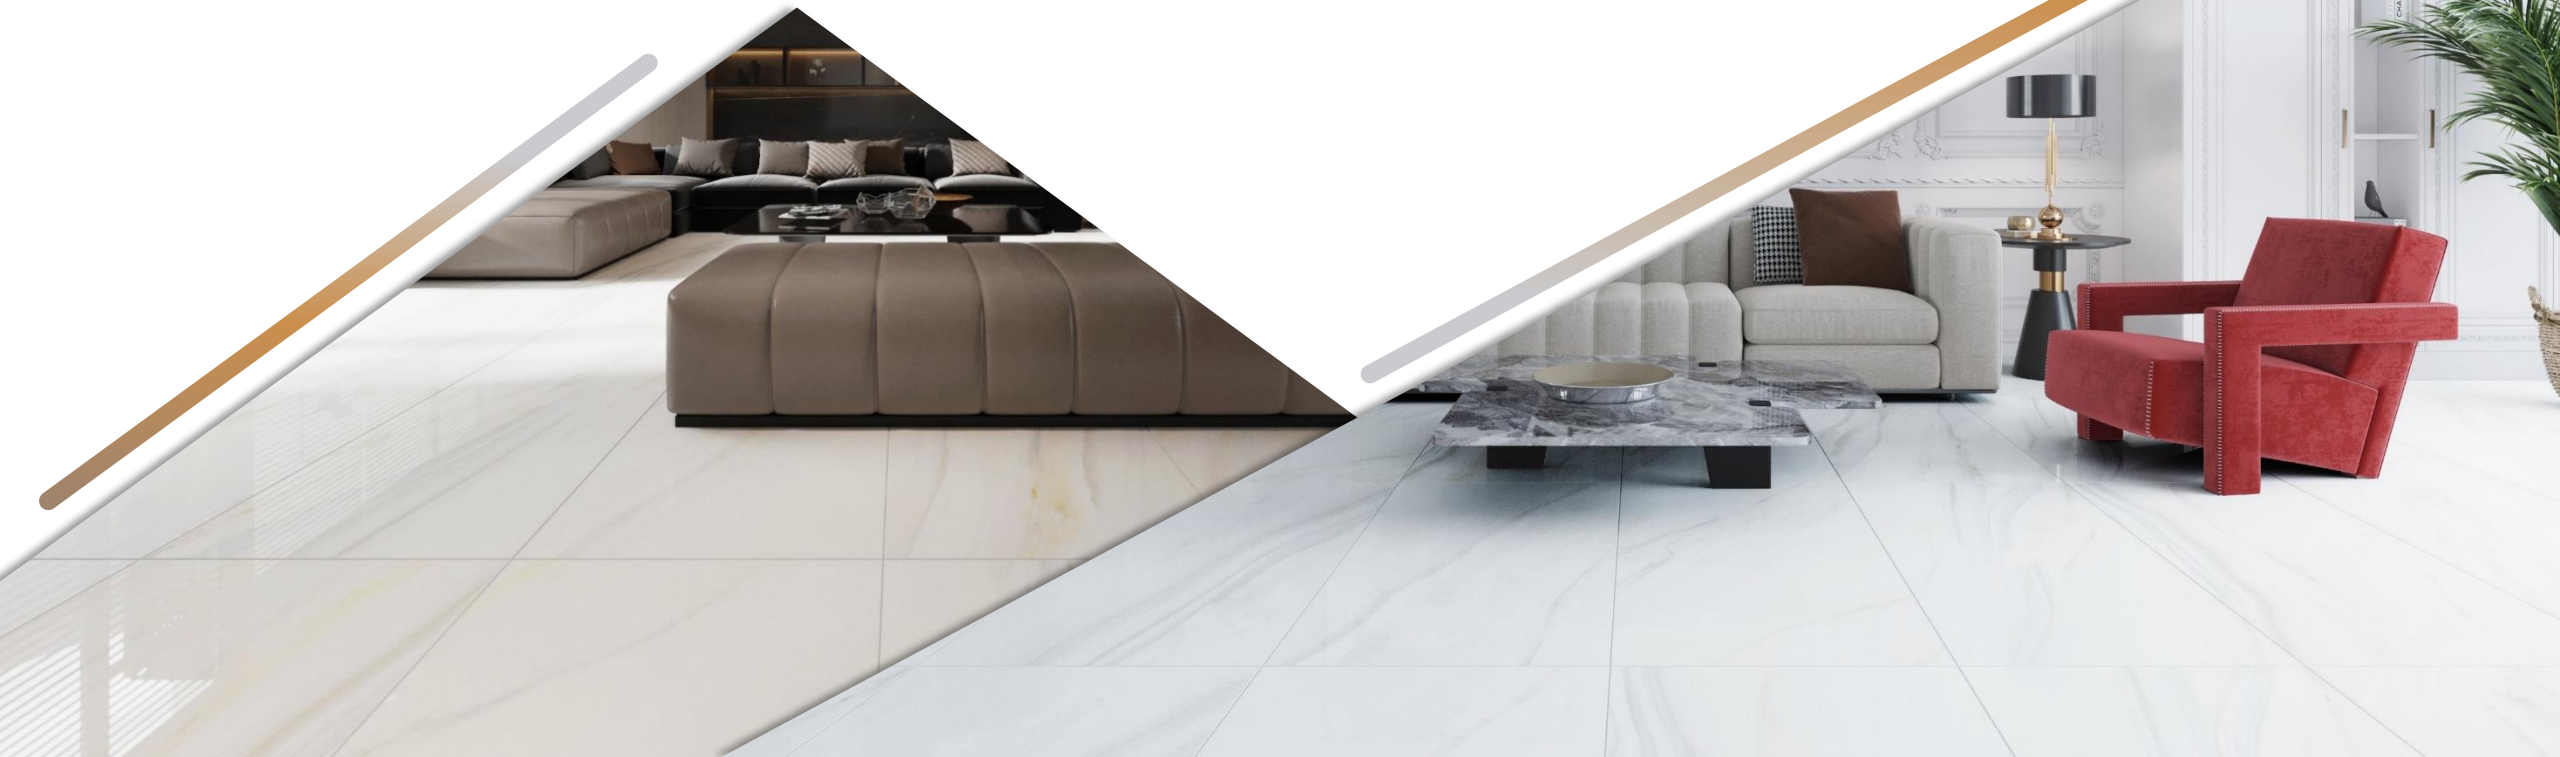

PORCELAIN TILES

A Collection of AMYGRES

ABOUT ONYX COLLECTION

Onyx stone is a gift of nature since it possesses exquisite and mystical beauty with a pattern that has a great contrast in color.

Swooning over such a charming beauty and getting inspiration from the formation of Onyx – Pyroclastic flows move slowly, through millions of years, and the transformation of layers of minerals create patchy color streaks with parallel bands ranging from black to almost every color. Onyx Collection is a combination of Onyx's aesthetic with the "Live Green" trend, hence bringing sustainability and function to each project.

PRODUCT DEVELOPMENT

With this Collection, not only does AMY GRUPO inherit the uniqueness of the Onyx gem but also adds some features and changes on the surface to fit home residential and commercial spaces.

The Onyx Collection draws everyone's eyes with its color combination of yellowish, light turquoise, and trendy gray that brings luxury, elegance, and attractiveness.

This Collection could be decorated as a focal point of interior space such as the facade, foyer, hallway, front desk, or other spaces to make a difference.

This Collection is available in various sizes: 30x60, 60x60, 80x80, and 60x120 which easily apply to several kinds of styles and spaces.

With irregular veins on each surface and the contrast in colors, Onyx Collection looks like a natural art picture to highlight every space.

As for modern life, this will be an architectural trend that is widely used in both residential and commercial spaces.
